Dear Walter:

Thank you for a very entertaining and enjoyable team building program. You were able to coax a group of normally restrained attorneys to think and act out of the box. The creativity displayed by our group was great. I think they surprised themselves with how well they worked together and the ideas each team came up with. The time and effort you and Jean put into the program, the food displays and creating an environment that cultivates team building is much appreciated. Our group enjoyed this program and would welcome you back anytime. I am looking forward to working with you again. Thank you.

Sincerely,

Michele L. Bendekovic
