Dear Walter,

We are ecstatic! Thank you for making our State Dinner a truly memorable evening for our guests. The food was flavorful and delicious. The anecdotes that you told gave our guests insights into a different world. We appreciate your accessibility to our guests as well as your organizational skills in making our evening run like clockwork.

It was a pleasure working with a professional during the planning process. They say "the devil is in the details." With your help and experience, we had no problem with the details.

This function was successful beyond our expectations! The telephone calls and notes from those attending were uplifting. We have been doing these types on dinners for over thirty five years and everyone said this one was the best.

Thanks again,

Sheila and Marvin Strauss
